sections of the United States prohibit the sale of cough remedies containing active poisons.

These laws have compelled the manufacturers to change their formulas, so that now most of the popular cough remedies will be found without their old-time effects, which was due to the dangerous narcotic drugs which they formerly contained.

SIROLIN comes from Switzerland to America to take the place of the old-fashioned cough and cold remedies. It is endorsed by the leading throat and lung specialists of Europe for trifling, as well as the most serious allments of the throat and lungs.

SIROLIN not only effectually combats symptoms but removes the cause of throat and lung affections. It tones the system—creates appetite.

SIROLIN is a truly modern preparation and is becoming recognized throughout the world as one of the great agents in fighting "The Great White Plague" through its power to prevent coughs and colds and other throat and lung ailments from becoming serious maladies, such as Pneumonia and Consumption.
